

CS460 Fall 2020

Name: Anees Ur Rehman

Student ID: 01748887

Due Date: 09/14/2020

Assignment 1: Intro

Part 1 (75 points): Describe your favorite WebGL demo.

My favorite demo is (<https://lusion.co/>). This is a company's website and they make real-time interactive graphics for agencies and studios. On their web page they are just trying to show their viewers about their abilities. The reason I picked it because it is so eye-catching and it looks more amazing when we move the mouse around on the screen.

Technologies used:

- HTML/CSS
- JavaScript
- Three.js
- SVG
- Netlify

Part 2 (25 points): Register for the virtual 3D world at <https://framevr.io/cs460> and customize your avatar. Then, add a screenshot of your avatar below.

Bonus (33 points): If possible, try to host the project as your own Github repository and make it accessible via Github pages. Please make sure to credit the original authors.

The demo has been taken from <https://github.com/mdn/webgl-examples>
